Summary: Started my journey in the ICT sector with deep enthusiasm and little experience. Looking for an opportunity to prove my skills as a new web developer. Through thousands of pains and sufferings, I have mastered the MERN stack. Prefer to work most likely and easily in this stack. I want to reveal myself through my skills in teamwork when given the opportunity.

Early Developed Projects:

Used Products Resell – Used Products Resell E-commerce Website - [Live](#) | [Client](#) | [Server](#)

- ❖ There have different types of login systems maintained with dashboards. Admin, Seller, Buyer
- ❖ Here is used React Query and React Hook Form For Fast Delivery and getting better input.
